CORE COMPETENCE & SERVICE PORTFOLIO

School Administration & Digitalization in Switzerland: Proven Expertise in *schulNetz*

Digital processes form the backbone of modern educational institutions across Switzerland. As a specialized consulting and project agency, CAEI supports Swiss public and private schools, international schools, municipalities, and cantonal educational projects in building future-proof administrative and communication structures – bridging the gap between pedagogical practice, school administration, and technical implementation.

12+ Years
HANDS-ON TRACK RECORD

Proven Excellence in the Swiss Education Sector with *schulNetz*

Our consulting is built on more than 12 years of continuous operational and project experience at a renowned school in Switzerland working extensively with the school administration software *schulNetz* (Centerboard AG). We know the system inside out – from Swiss cantonal requirements and complex multilingual school workflows to seamless day-to-day administration.

Our Services for Your Swiss Educational Institution

Conception & Process Analysis

Analysis of existing administrative workflows, gap analyses, and tailored functional specifications for optimal mapping in *schulNetz*.

Project Management & Rollout Support

Structured project governance from initial planning and data migration through successful go-live and post-launch optimization.

Custom Configuration & Interfaces

Tailored setup of workflows, user permissions, cockpit reports, and integration with third-party municipal, financial, and educational systems.

Quality Assurance & Testing

End-to-end functional testing and validation of all administrative processes prior to go-live to ensure smooth school operations.

Training & Change Management in Multilingual Environments

Technology only succeeds when people embrace it. We deliver hands-on training for school leadership, administrative offices, and faculty in German and English – guiding digital transformation sustainably across your institution.

Our Strengths – Impulse for Swiss Education

01
Swiss School Management

Over 12 years of direct operational insight into Swiss educational structures, cantonal standards, and multilingual requirements.

02
Organizational & Process Competence

Deep system mastery of *schulNetz* with zero ramp-up time, identifying operational pitfalls before they arise.

03
Interdisciplinary Collaboration

Fluent in both the language of Swiss school leaders and educators as well as municipal authorities, IT teams, and Centerboard AG.

04
Personal Project Guidance

Independent, solution-oriented partnership focused 100% on sustainable relief for your administrative teams.

Ready for the Next Step in School Digitalization?

Whether you are planning to introduce *schulNetz*, optimize existing workflows, or require experienced project support for your school in Switzerland – we are happy to advise you in a non-binding initial consultation.
